EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph Chung on 5/3/05. This examiner amendment is being made because the examiner did not agree with all the applicant's arguments regarding claim 1.

The application has been amended as follows: **Cancel claim 2. Revise the claims as indicated below.**

Claim 1: An electrical connector, comprising;
a shielded connector, comprising:
a terminal subassembly having an insulating housing and a plurality of
terminals received in the housing;
a lower shell having a base plate, a mating frame in a front end of the
base plate for receiving the terminal subassembly, and a pair of sidewalls
upwardly extending from the base plate; and

an upper shell attached to the lower shell; and having a cover plate and a pair of sidewalls downwardly extending from the cover plate; and

a cover comprising:

a first cover member;

a second cover member;

a positioning means, comprising at least one pillow provided in one of the first and second cover members, and at least one cutout defined in the other cover member for receiving said at least one pillow; and

a latching means comprising a detent disposed, in said at least one pillow, and a latching tab projecting from said at least one cutout and having an opening for latchably engaging with said detent;

wherein said terminal subassembly further comprises a tongue blade extending forwardly from the insulating housing, and a printed circuit board assembled to a rear side of the insulating housing, and said terminals are received in the tongue blade and extend through the insulating housing to electrically connect the printed circuit board.

In claim 2 delete “claim 2” and replace with —claim 1--.

2. The following is an examiner's statement of reasons for allowance: The combination in claim 1 specifically terminals in the forwardly extending tongue blade that extend through the housing to connect with the PCB. Reasons for allowance of claim 17 were given in the previous office action. The combination in claim 25 specifically the cap assembled to the mating tongue blade and covering such while still exposing the open mating port in a front to back direction. The combination in claim 27 specifically the lateral opening of the cover members laterally aligned with the lateral opening of the shells to expose the hook of the tab.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael C. Zarroli whose telephone number is 571-272-2101. The examiner can normally be reached on 7:30 to 3:30 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, T.C. Patel can be reached on (571) 272-2800 ext 39. The

fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
